We will try our best to be engaging and exciting for the duration of the session and we expect the players to be excited and enjoying the games we play. Any adaptations we can make to our games we will, if there is some equipment needed to help we will try to have it handy and ready.

Our aim, as always, is that the players enjoy the soccer games, the socializing with others and the fun, safe environment we've created for them to play in.

We do ask that if there are siblings that attend, they not interfere with the games but only help their brother/sister enjoy the activity.
